The sample table above is a small selection of common procedures discounted by Careington Care 500 Series. Once you're a member, you will be provided with a complete fee schedule with discounted fees for nearly every dental procedure. All procedures listed under Careington Care 500 Series offer similar savings to the sample above. Other plans may have fees that vary by region and dentist.

<sup>1</sup>The ["Usual Fee"] is determined by DentalPlans.com, Inc., using benchmark data from FAIR Health, Inc. FAIR health data is used under license. Fees may reflect combined fees from several different procedures into one procedure and may not be directly comparable to a specific benchmark in FAIR Health Data. Actual fees charged by your provider may vary for a variety of reasons.

<sup>2</sup>Discounted fees are listed for visits to a participating general dentist – this fee is according to your fee schedule. Any procedure not listed on the complete fee schedule (provided in your members area once you join) will be discounted 20% off the provider's normal fee. Consult with your provider prior to beginning any treatment.
