Guide to DentalPlans.com

[:DentalPlans.com](https://www.dentalplans.com)

DentalPlans.com, a Henry Schein One Company, helps people access the quality healthcare that they need, at a price they can afford. We have been in business since 1999. During that time, we have helped more than 1 million people save at the dentist.

We help people choose, purchase and get the most out of dental savings plans provided by brands such as Aetna, Careington and Cigna, along with many other leading healthcare companies.

Our website, DentalPlans.com, serves as a resource to help people understand the importance that good preventative dental care plays in their overall health and happiness. We provide content that empowers consumers to take charge of their health, and take the best possible care of themselves and loved ones.

This guide is an introduction to dental savings plans and DentalPlans.com. Together we can help uninsured and under-insured patients get the care that they need, and complete their treatment plans.
